# Fire Resisting Security FILING CABINET

**ALL CMI SAFES COME WITH A FIVE YEAR WARRANTY, EXCLUDING FREIGHT AND TRAVELLING, WITH A 24 MONTH WARRANTY ON LOCKS.**

## CMI Security Filing Cabinets offer first-class fire and theft protection in the one unit.

**BODY:** Total thickness 70mm. The safe body features a highly efficient fire-resistant mineral compound of extremely low heat conductivity between inner and outer walls of specially reinforced steel. A sealed expanding gasket is fitted around the entire door perimeter to resist entry of heat, smoke and water.

**DOOR:** Total thickness 90mm. The safes have a heavy steel plate door and frame for maximum strength, with an insulation chamber fitted to the rear. Front and rear locking bolts of 32mm diameter high grade steel provide 2-way locking into the specially strengthened lock chamber sections at front and rear edges

of the door. Special hinges allow the door to turn through 270° to remain parallel with the side of the safe allowing clear internal access.

**LOCKING:** Secured by a digital lock powered by 1 x 9V Duracell battery. Glass activated relocker system to further enhance safe security.

**INTERNAL FITTINGS:** Supplied complete with a filing cabinet of appropriate size. Optionally, may be supplied with a smaller filing cabinet and some adjustable shelving.

**FINISH:** Painted in attractive durable enamel. Satin finish handles, locks and fascia panel complement the high quality appearance.

**FIRE RESISTING SECURITY FILING CABINETS DESIGNED TO BE FIRE RESISTING FOR ONE HOUR**
